

MOWDEN HALL SCHOOL

CONTROL OF PUPIL ACCESS TO RISKY AREAS POLICY

Aim

The aim of this policy is to state the School's procedures for controlling or denying unauthorised access by pupils to potentially dangerous or risky areas of School buildings and grounds.

Introduction

The Cothill Educational Trust (CET), Headmaster and staff of Mowden Hall School are fully committed to ensuring the safety and welfare of all pupils at the School. On a large and complex site, there are bound to be areas within the buildings or the grounds that are considered to present risks to the safety of the pupils who may accidentally or deliberately stray into them.

Procedures

1. The School makes every effort to ensure that all potentially dangerous areas are, wherever possible, made secure by fencing, locking or otherwise physically preventing access to them. Areas temporarily out of bounds are fenced or cordoned off and appropriate warning notices are placed to describe the danger. In addition, children are informed by staff.
2. In relation to the grounds, the areas the pupils may access is dependent on the weather, the time of year and the light. Staff will thoroughly brief all pupils in assembly and in the boarding house whenever the boundaries for the pupils are altered. Due to the age of the children, at no point should a child be playing in the grounds without a supervisory member of staff aware of who is playing where and making checks on them regularly and often. This would include when the children are playing on the tennis court adjacent to the main building and the duty member of staff has given permission. The duty member of staff will make regular checks on the courts in this case. There are certain areas which remain out of bounds at all times. These are highlighted within this policy.
3. In addition, pupils are informed or reminded regularly by boarding and / or teaching staff of the dangers of entering risky areas of the School. They are made aware that to enter such an area deliberately is regarded as a very serious disciplinary offence that will be dealt with in an appropriate manner.
4. Areas of the School known to present risks to pupils are listed in this policy along with the control measures currently in place.

HAZARDS – Building or area	CONTROL MEASURES – strategies required to manage the risks safely	Action by whom?	Arrangements for monitoring by senior staff
Beyond the limit of the School grounds/Perimeter	All pupils briefed on arrival and at regular intervals thereafter	All staff	NAB
